Q2 Series Self service kiosk

Product type： Self-service kiosk

Operating system: Android system/Windows system (optional)

Running memory： 2G/4G/8G

Solid state drive: Android version 8G/16G/32G; PC version 128G

Touch type: G+G capacitive touch

Product size： 21.5 inches, 23.8 inches, 27 inches, 32 inches

Installation method： floor-standing

Upgrade function: Provide device online upgrade and remote upgrade function

HD
High-definition display

Multi-touch

Face recognition

Invoice printing

barcode scanning

built-in WIFI

system optional

function customization

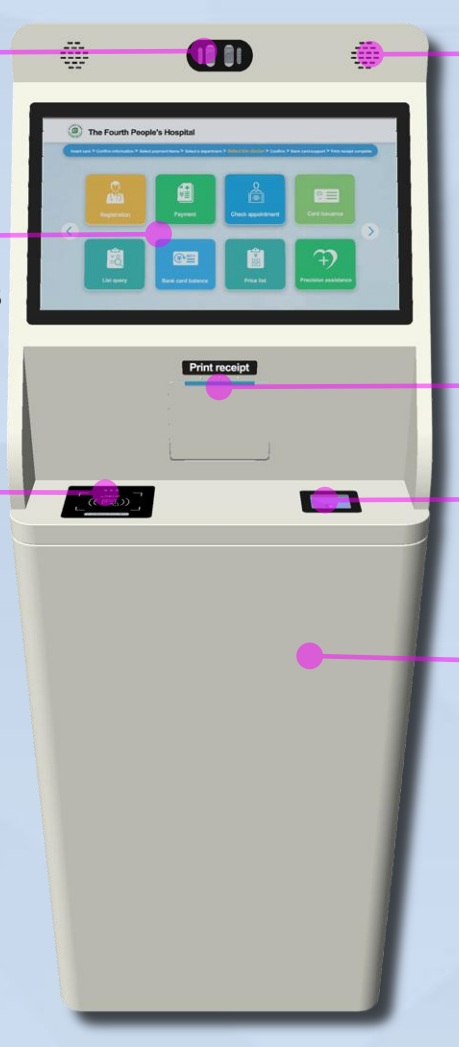

interface customization

Energy saving environmental protection

strong compatibility

support customization

Appearance Introduction

Binocular camera

Horn

1080P high definition
10-point capacitive touch
7 Mohs hardness tempered glass

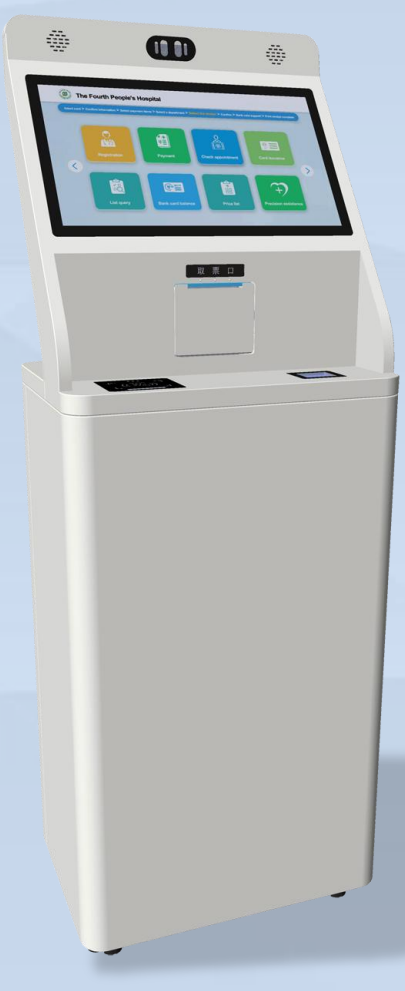

Thermal printer with cutter

ID card recognizer

180 degree bar-code scanner

Front frame aluminum alloy
+ anodized oxidation

Back shell cold-rolled steel
+ metal baking paint

Nice Appearance

Ergonomic design, stylish and beautiful, fine craftsmanship,color optional

Easy Maintenance

Independent design of each module,easy installation and removal

Flexible Expansion

Modular design and flexible configuration, Customized

Production configuration parameter

Configuration	Android	Windows
Motherboard	Embedded Industrial Control Motherboard	Embedded Industrial Control Motherboard
Processor	3288 / 3399	Intel i3 / Intel i5 / Intel i7
Running memory	2G / 4G / 8G	2G / 4G / 8G
Hard disk	8G / 16G / 32G	128G
Network	Wired (Ethernet 10/100/1000Mbps) / Wireless (2.4G/5G)	
Resolution	1920*1080	
Brightness	350 cd/m²	
View angle	178°	
Touch screen	Capacitive ten-point touch screen	
Camera	Binocular camera	
Scan window	180-degree large scanning window, self-service customization, support 1&2D scanning recognition, support mobile phone screen scanning recognition, support no backlight screen barcode	
Printer	Hermal printing, speed 170mm/second, paper width 80mm, print head life 100Km, cutter life 1 million times	
Audio	5*2W	
Voltage	AC 220V 50Hz	
Power	60-300W (different sizes, configurations, power consumption, please consult customer service for details)	
Support customization of external devices	Card reader (ID card, NFC, IC, D card), POS machine, scanner, fingerprint recognition
